Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice to Applicant (s)

1. This action is responsive to the following communications: amendment B filed on 1/12/04.
2. This application has been reconsidered. Claims 1-14 are pending.

Withdrawal of Finality

3. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1, 5, 6 and 12 rejected under 35 U.S.C. 102(e) as being anticipated by Shimakawa et al. (Shimakawa) (US 5,802,260).

Regarding claims 1 and 6, Shimakawa discloses a process comprising the steps of establishing a printer driver preference at a first client computer for sending a first print job to an output device (Abstract, lines 1-7), sending the set from the first client

Art Unit: 2622

computer to a second client computer (Abstract, lines 7-17), and using the set at the second client computer to send a second print job to said first output device (Abstract, lines 15-17).

Regarding claims 5 and 12, Shimakawa discloses the process wherein the output device is a printer (Figure 1, reference elements 109 and 110).

Allowable Subject Matter

6. Claims 2-4, 7-11 and 13-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments, see page 4, line, 7 – page 6, line 14 filed 1/12/04, with respect to the rejection(s) of claim(s) 1-14 under 35 USC 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Shimakawa et al. (Shimakawa) (US 5,802,260).
